DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/7/07 has been entered.

Response to Amendment

2. The amendments to Claims 1, 21, 23, 37-38, 42 in the submission dated 8/7/07 are acknowledged and accepted. In view of these amendments, the objections to the claims in Section 10 of the Office Action dated 5/7/07 are respectfully withdrawn.
3. The cancellation of Claims 15-17, 22, 32-33, 36 in the submission dated 8/7/07 is acknowledged and accepted.

Allowable Subject Matter

4. Claims 1 and 21 are allowable. The restriction requirement among Species IA and IB of Invention I, as set forth in the Office action mailed on 8/17/05, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that**

requires all the limitations of an allowable claim. Claims 2-14, 18-20, directed to Species IA, are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

5. Claims 1-14, 18-21, 23-24, 31, 35, 37-42 are allowed.

REASONS FOR ALLOWANCE

6. The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable over the cited art of record for at least the reason that the cited art of record fails to teach or reasonably suggest a method for fabricating a compound optic for short wavelength radiation, as generally set forth in Claim 1, the method including, in combination with the features recited in Claim 1, thinning the substrate on a side of the substrate opposite the surface profile to form an optical port on a backside of the substrate; and forming a zone plate lens of the compound optic on the substrate in the

optical port. Claims 2-14, 18-20, 31, 41-42 are dependent on Claim 1, and hence are allowable for at least the same reasons Claim 1 is allowable.

Claim 21 is allowable over the cited art of record for at least the reason that the cited art of record fails to teach or reasonably suggest a method for fabricating a compound optic for short wavelength radiation, as generally set forth in Claim 21, the method including, in combination with the features recited in Claim 21, forming a second optical element of the compound optic by reference to the fiducial mark; and thinning the substrate on a side of the substrate opposite the surface profile to form an optical port on a backside of the substrate. Claims 23-24, 35, 37-40 are dependent on Claim 21, and hence are allowable for at least the same reasons Claim 21 is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
